U.S. District Court Judge

Open letter to: MR. Norgle

"SIT Down Before Fact Like A child, And Be Prepared To Give up Every preconceived Notion. Follow Humbly wherever And To whatever Abyss Nature Leads, Or You Shall Learn Nothing." (T.H. Huxley)

This is what I suggest to you today. Look at everything that you have, up until now, just accepted as fact. Check for yourself the so-called facts and you will find to your astonishment that you have been duped into believing whatever your controllers told you were facts. There are studies going on all over the ~~this~~ planet, checking "FACTS" and they are finding the correct answers.

To give you an overview of the concept of what this (OPPT) is doing and has done you have to understand how our current reality has been manipulated. Some time, long ago, humanity made the choice to experience separateness from creator source. In in truth separation is impossible, but creator source allowed an allusion of it for its many manifestations of source. A contract was made and sides were chosen by the participants in duality consciousness. Whether this was a voluntary choice or whether humanity was pushed and tricked into it by outside meddlers, I don't know. The choice to experience separateness in a state of duality consciousness drew into this environment other beings who were attracted to the lower density negative consciousness. They fed off the negative energies. An invasion of sorts ensued. These beings set up an quantum anomaly in the etheric realms that would cut off human beings that inhabited this planet from source, their identity, and their memories of other incarnations. Thus shielding humans from the natural energy input from creator source. This allowed these beings to parasite the energy, time, and resources of human beings dwelling here, and shield themselves from higher energies they found uncomfortable. This quantum anomaly vastly shortened human life spans which faciliated control because knowledge was lost when people died. They convinced the people over the ages that they had sinned, that source had abandoned them because source didn't love them. That they had fallen from grace. Nothing was ~~from~~ further from the truth. They used the natural energy grid of the planet to reinforce their control by making sure the darkest and most savage events took place on the acupressure points of this planetary grid creating a negative feedback loop into the very ecosystem of the planet. The earth energy grid looks very much like the patterns on the surface of a soccer ball. Governments were formed, and an economic system was imported from the Orion system. They had done this on other worlds before. It was a competitive economic casino system pitting one innocent →

human against another. The game was rigged and the house always won. The system rewarded handsomely those who faciliated the system, the beings needed human minions, and they quickly empowered the Most sociopathic and compassionless among the people, to rule as puppets for them. They created systems of hierarchies, one form of "archy" "ism" and "ocracy" after another. They knew that to keep up this synthetic entropic reality of scarcity, they must always polarize the beings who still had energetic ties to source within their heart. For if they awakened the illusion would fall. They divided humanity with religions, ideologies and political factions to keep people in their seats within the system and so busy surviving they never had time to simply BE. No time to ponder, no time for contemplation, no time for Joy, Just a brutal struggle for basic survival while the minions of power wallowed in luxury and comfort. For if the people had time to contemplate the structure of the universe they dwelt in, they would notice the stars defy entropy and only grow more complex, and that nature itself defied entropy producing much bounty from the soil and sunshine compared to the effort of planting it, and the full abundance the Creator Source intended for humanity. The spiritual traditions were twisted, the judges corrupted, and the educational systems were designed to teach people this was the natural order of things. What the Trustees of (OPPT) accomplished was the reverse engineering of the financial system, including its endemic corruption. They discovered was that it was beyond repair. But what to do? The minions still controlled the Judges, the police, the banks, the Media, and the consciousness of an unawakened humanity. "For all the corruption inherent in the system, all the companies, transactions, financial houses, and governments (world wide!) were all registered corporations within a very well documented system called the UCC. All IRS codes are registered in the UCC. All US codes are registered in the UCC. All international equivalents are registered in the international equivalent of the UCC. Its all there, registered and documented. The US was a corporation until they canceled it and left what always was, the United States of America Trust. There was one for Australia. Iran too was a corporation. This means the very concept of self-determination by the citizens of Any country, was and is a complete fraud. What wasn't well known was that the UCC and commercial registry was itself a privately run company, commandeered and run by the principals, agents, and beneficiaries of these slavery systems, these private corporations until one of the people discovered it. Through a series of registration, gift, and assignment the ownership is now with the original owner who paid for it... We the people of this planet. But humanity didn't "Know" that it was gifted, or rather, returned back to them and the bankers were sure not going to tell them that, In legal terms, in order for a gift tranfer to take place, someone has to accept the gift. Heather Ann Tucci Jarraf Trustee of (OPPT) drew up the acceptance papers and accepted and registered the gift of the UCC for humanity to be held in perpetual trust by the one people's public Trust, Which itself belongs to humanity.

The one people's public Trust has created and filed legal documents based on The Law of One, Universal Law, and UCC law that States in effect each human is a manifestation of the Creator Source, and as Such is a Creator, and is not subordinate to any artificial principality or Corporate fiction.
